Index of Subjects

Abundance and distribution of elements, 292
Aeronomy, 221, 605, 621, 627
  history, 617
Affiliated organizations, 468
Airglow, 240, 242
Antarctic oceanography, 257
Antarctica, 654
Arctic meteorology, 190
Atmosphere, chemistry of, 186
  dynamical processes, 588
  general circulation of, 177
  structure of, 587
Atmospheric chemistry and radioactivity, 602
Atmospheric composition and densities, 623
Atmospheric electricity, 184, 588
Atmospheric optics and radiation, 187
Atmospheric physics, 177, 582
Audit committee report, 67, 478
Aurora and airglow, 609, 625
Auroral and related airglow work at Yerkes Observatory, 240
Auroral spectroscopy, 236

Books of interest and importance to geophysicists, 38, 319, 438, 662
Bowie Medal, 73, 123
Budget for fiscal year 1961, 472
By Laws, notice of intent to change, 486

Carbon dioxide in atmosphere and ocean, 636
Chemical oceanography, comparative, 638
Chemistry of rare and dispersed chemical elements in soils, 660
CIG, 657
Climatology, 204, 585
Cloud physics, 197
Cloud Physics Conference, 487
Commission of Snow and Ice, 646
Committees, Union and Section, 70
Continental and oceanic crust, 573
Cosmic radiation research in the United States, 249
Cosmic-ray effects in meteorites, 289
Cosmic rays, 249, 289, 617
Currents, 631

Deep-sea sediments, 275
Drought and water supply, 652

Earth, internal constitution, 577
Earth currents, 616
Earthquakes, 435, 575
Earth's crust below the oceans and in the continents, 172
Electronic computers, application to seismological problems, 169
Encyclopedia of the oceans, 659
Equatorial currents, 255
Erosion and sedimentation, 301
Evaporation and transpiration, 305
Executive Committee, 54, 457, 468, 681
Exosphere, 624
Experimental petrology, 281

Fault plain work, 576
Finance and investment, report of committee, 483
Fleming Award, 349
Flow, fracture, and strength of rocks in laboratory, 162
Forty-first annual meeting, 73, 334
Forty-second annual meeting, 350, 487, 683

General Secretary, report, 54, 334, 457
Geochemical methods of prospecting and exploration for petroleum and natural gas, 36
Geochemistry, 281, 639, 640, 641
  of ocean water, 259
Geochronology, 287
Geodesy, 131, 560
Geodesy and Cartography, USSR, contents January and February, 1959, 665
  proposed translation, 488
Geodetic astronomy, 137, 564
Geodetic measurements related to crustal movements and particularly earthquakes, 153
Geography and energy of earthquakes, 575
Geoid, 565
Geoid investigations, 141
Geological and Geophysical study of continents, 475
Geomagnetic and geoelectric variations, 226
Geomagnetic field in space, 4
Geomagnetism, 221
  and aeronomy, 221, 605, 627
  history of, 617
Geophysical aspects of cosmic rays, 617
Geophysical and geological study of continents, 475
Geophysical monograph board, 484
Geophysical publications, comparison of number of pages in 1958 and 1959, 67
Geophysical Society of Hawaii, meeting, 69, 348, 682
Glacier flow, 651
Glacier studies, 649
Glacier surveying and measuring, 650
Glaciers, 308
  and climate, 649
Glacio-meteorology, 649
Gravimetry, 564
Gravity at sea, 271
Gravity observations and reductions, 138
Gravity tide measurements, 160
Ground water, 311

High atmosphere, 609
High atmosphere problems, 619
Hydrology, 299, 644

IAH budget, 645
IAH bulletin, 645
Ice, snow, sea, lake, 647
IGY, bibliographic notes, 88, 104, 122, 368, 388, 406, 504, 519, 539, 716
IGY Bulletins, 75, 91, 107, 351, 371, 391, 489, 505, 521, 685, 701, 717
Instruments, 577
Internal constitution of the Earth; physics of the interior, 173
Internal waves, 263
International affairs, secretary, 66
International Committee of Geophysics, 657
International Latitude Service, 567
International participation, report of committee, 477
International Union of Geodesy and Geophysics, 22
Interplanetary medium and solar emissions, symposium, 334
Introduction to geophysical prospecting, 319
Ionospheric research, 232
Island arcs, 579
Isostatic compensation, 166
IUGG Twelfth General Assembly, 73, 127, 349, 544
  Administrative Report, 549
  AGU report to, 66, 127
  General Report, 547

Izvestiya, contents January-March, 1959, 39
contents April-August, 1959, 320
contents September-December, 1959, 439
contents January-March, 1960, 663

Land erosion commission, 651
Leveling, 563
Longitude and latitude observations, 137
Lunar variations, 614

Magmas, physical chemistry, 640
Magnetic activity, 615
Magnetic charts, 613
Magnetic comparisons, 614
Magnetic interpretations, 614
Magnitude and energy of earthquakes, 148
Marine geology, 633
Marine seismic studies, 269
Meeting, AAAS in Chicago, 69
AGU, 41st annual, 73, 334
42nd annual, 350, 487, 683
Geophysical Society of Hawaii, 69, 348, 682

Pacific Science Congress, 684
Pacific Southwest Region, 350, 487, 684
U. S. National Commission for UNESCO, 68
Meteorology and Atmospheric Physics, 177, 582
Methods in geochemistry, 661
Metric system, report of committee, 68, 477
Microseismic research, 151
Microseisms, 572
Mine-water pools, Montana earthquakes noted in, 435
Minutes, Executive Committee meeting, 54, 457, 468, 681
General Assembly, 334
Geodesy, 339
Geomagnetism and Aeronomy, 343
Hydrology, 346
Meteorology, 340
Oceanography, 344
Planning committee on planetary sciences, 337
Seismology, 339
Special meeting of Executive Committee, 681
Tectonophysics, 347
Volcanology, Geochemistry, and Petrology, 345
Mohole symposium, 488
Monograph board, 484
Montana earthquakes noted in Pennsylvania, 435
Movements of Earth's crust, 580

Nominees for officers, 485
North Atlantic submarine ridges, 633
North Central region, organization of committee, 350
Notes, 47, 327, 448, 670
Numerical weather prediction, 209

Observatories, 609
Ocean floor, 634
Oceanic and Continental crust, 573
Officers, nominees for, 485
Organization and salaries of AGU, 474
Outer atmosphere, chemistry of, 186

Pacific Science Congress, 487, 684
Pacific Northwest regional meeting, 69, 349, 487, 682
Pacific Southwest regional meeting, 350, 487, 684
Paleomagnetism, 613
Paleovolcanology and plutonics, 640
Past ice ages, 213
Personalia, 50, 330, 452, 677
Petrology, 281, 639
Phase relations at high temperatures and pressures, 283
Physical oceanography, 255, 629
Physics of the upper atmosphere, 659
Planetary sciences, a home for, 407
Planetary sciences program highlights, 430
Plutonics, 640
Plutons and volcanoes, 643
Polar atmosphere, antarctic, 192
Precipitation, 299
Precipitations committee, 651
Precise leveling, 134
President, report, 334, 462
President's page, 1, 129, 407, 541

Radar meteorology, 35
Radiant energy in the sea, 637
Radiation, 622, 624
Radiation belts of the Earth, 246
Radioactive ages of rock systems, 642
Radioactivity, atmospheric, 602
Researches in geochemistry, 661
Resolutions, report, 335
Rock systems, 642
Rockets, meteorological use of, 583
Russian translation board, report, 471

Salaries and organization of AGU, 474
Satellite meteorology, 219
Satellites, geodetic use of, 566
meteorological use of, 583
Scientific hydrology, 299, 644
Sea floor relief, 274
Sea level, 568, 634
Sections, reports, 468
Secular variations and paleomagnetism, 613
Seismic exploration, 157
Seismic instruments, 145
Seismic records, 571
Seismic ware propagation, 150, 575, 578
Seismograph stations and equipment, changes in the United States, 146
Seismological research, current developments in, 155
Seismology and physics of the Earth's interior, 145, 569
Snow accumulation and ablation, 648
Snow and ice, 314
Snow, sea, and lake ice, 647
Solar emissions and the interplanetary medium, symposium, 334
Solar-terrestrial relationships, 230
Soviet soil science, 437
Space, geomagnetic field, 4
results of experiments in, 410
Special committees, reports, 335, 463
Stable-isotope geochemistry, 298
Standing committees, reports, 335, 463
Statistical methods, 216
Storm surges, 266
Study of rocks in thin section, 35
Sublimates, volcanic, 642
Submarine ridges, 633
Surface runoff, 315
Surface waves, 261
Symposium on solar emissions and the interplanetary medium, 334

Technology in American water development, 36
Tectonic theories, 168
Tectonophysics, 145, 569
Tellers report, 335
Tenth Pacific Science Congress, 487
Terms of office, contemplated change, 349
Tidal estuaries, 634, 654
Translations of Russian and other scientific journals and papers, 41, 325, 442, 666
Triangulation, 131, 561

Triennial report to IUGG, 66, 127
Tropical meteorology, 194
Tsunamis, 265
  and storm surges, 635
Twelfth General Assembly IUGG, 349, 544

Upper atmosphere studies, 179

Variation of latitude, 137
Volcanic gases and sublimates, 642
Volcanoes, 640
  and plutons, relations, 643
Volcanological observations, 281
Volcanology, 281, 639

Water supply and drought, 652
Waves and tides, 633
Weather modification, present status and promise, 26
Wisconsin glacial stage chronology, 288
World magnetic survey, 613
